

IN TUNE WITH
DOWN SYNDROME
5
Ways to use
MUSIC in therapy

1. Chant math facts, counting, & letter sounds to a beat or Sing to a melody.

Who do we appreciate?
1!
2!
3!
4!
5!
6!
7!
8!

A-A-Apple!

2. Teach piano to help with fine motor skills & color code the notes & keys if needed.

5. Say challenging words or phrases to a slow rhythmic beat & have your child copy you.

The Blue BIRD BLINKED

3. Have your child help you make up new lyrics to a song to increase time on task

If you're happy & you know it
TOUCH your face

4. Create pictures that go along with verses in a song & have your student put them in order.
